

Stopping and Restarting Text Message Delivery

You can enter your mobile number into as many of your Teams and Clubs as you want. The first thing you need to know is that if your mobile number is in with 2 different teams and the same message gets sent out to both teams you will only receive the one message.

If you have entered your number into multiple team and/or club slots this can easily be managed from the Sportcheck Website. There will be times when you want to stop messages coming from one team or club but keep it coming to you from other teams or clubs, so here is how you do it.

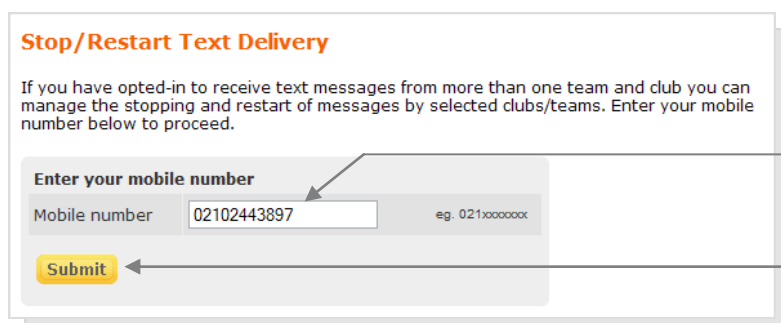

Step 1 – Managing multiple Message deliveries

1. From the Sportcheck homepage click on Stop/Restart Text Delivery

The screenshot shows the Sportcheck.co.nz homepage. At the top left is the logo with the tagline 'GET THE MESSAGE'. To the right are search and login buttons. The navigation menu includes 'Home', 'Club Registration', 'How it Works', 'Stop/Restart Text Delivery', 'About us', and 'Contact us'. The 'Stop/Restart Text Delivery' link is circled in red. Below the navigation, there is a 'Check for a message' section with dropdown menus for Sport, Region, and Club, and a 'GO' button. To the right is a 'How it works' section with a 'VIEW THE DEMO' button. Below that is a 'Get involved!' section with a link to find out how to get involved and a green 'Add your club! (it's free!)' button. On the left side, there is a vertical banner for 'VILLAGE SKYCITY CINEMAS' with the text 'click here for today's session times and to book tickets'. At the bottom, there is a copyright notice: 'SportCheck © 2006 | Disclaimer, Privacy, Terms & Conditions | Web design - Styrofirm'.

2. Enter your mobile phone number and click on Submit

The screenshot shows the 'Stop/Restart Text Delivery' form. It contains the following text: 'If you have opted-in to receive text messages from more than one team and club you can manage the stopping and restart of messages by selected clubs/teams. Enter your mobile number below to proceed.' Below this is a section titled 'Enter your mobile number' with a text input field containing '02102443897' and a small example 'eg. 021xxxxxxx'.
