## TO WHOM IT MAY CONCERN

Netball Hutt Valley has been using Sport Check text cancellation service for two seasons now. Currently we have over 250 teams playing netball on a Saturday and having this text cancellation service has proved invaluable to our members and our centre. The system is easy to use and administer allowing the centre to have full control of deleting or adding teams as well as checking on how many members have signed up and to what teams.

This season we introduced Division Codes which meant players were able to text their primary, intermediate or senior code to a specific text number which made the process even easier for players to register.

With parents and players already busy on a Saturday with other codes of sport the ease of finding out if Netball is cancelled by receiving a text message is proving most beneficial and is now our number one cancellation service provided to players.
